Summary

With a background in Content Management System in Moscow, I delved into web development through structured courses with internship at MASA Web Development and supplemented my knowledge with platforms like freeCodeCamp, htmlacademy, Codewars and LeetCode. I'm skilled in HTML, CSS, JavaScript, and React, and focused on creating efficient, responsive, and user-friendly interfaces. Now seeking an opportunity to apply my frontend skills in a collaborative environment, aiming to produce quality web solutions and grow professionally.
